

ACTIVA SRL	POLITICA DELLA QUALITÀ	PQA 01
------------	------------------------	--------

## QUALITY POLICY

**ACTIVA SRL** operates in the territory as a company for the PRODUCTION AND TRADE OF ADDITIVES FOR BITUMEN, BITUMINOSOUS CONGLOMERATES AND BITUMINOUS EMULSIONS. The company operates under a Management System that complies with the **UNI EN ISO 9001:2015** standard.

The objective of **ACTIVA SRL** is to provide its customers with the highest possible quality at the right price, guaranteeing compliance with the regulations in force and always trying to prevent risks that may arise from production processes, so that situations that may cause damage to workers' health do not occur.

**ACTIVA SRL** intends to move towards an efficient work organisational system aimed at continuous improvement, therefore: continuous training and sensitisation and empowerment of the staff become a constant aptitude for improvement, allocating adequate financial resources to the implementation of this **Policy** and the **Objectives**, committing itself, therefore, to comply with the following principles for quality:

- adaptation and maintenance of a Management System in accordance with **UNI EN ISO 9001:2015**, in order to increase production, organisational and commercial benefits in accordance with **ISO 14025:2006 e EN 15804:2012 + A2 :201/AC:2021**.
- provision of the necessary resources to continuously improve the effectiveness of the Quality Management System;
- complete and timely definition of customer requirements (stated and implied);
- fulfilment of customer requirements;
- perfection of the work methodology in all production phases;
- promotion of improvement and innovation of the products offered through the involvement of personnel and participation in courses, trade fairs and other activities;
- satisfaction of mandatory product requirements;
- control of outsourced processes.

The following principles for workplace safety and health:

- continually improving the level of safety for workers in the performance of their duties;
- continuous identification and assessment of risks of prevention and protection measures;
- use of less hazardous products and more environmentally friendly products;
- co-involvement of all personnel in the achievement of health and safety objectives;
- reduction of the number of accidents and prevention of occupational diseases;
- allocation of adequate resources for the implementation of the safety management system.
